ANNOUNCEMENT OF PRICE ADJUSTMENT

Dear Valued Customers and Partners

We, Nihon Kohden Corporation are established and well-known as a manufacturer of Bedside monitor, Central Monitor, CO2 Monitor, Pulse Oximeter, Electrocardiograph, Electroencephalograph, EMG/EP Measuring System, Defibrillator, Automated External Defibrillator, Ventilator and Neural Function Measuring System, located at 1-31-4 Nishi Ochiai, Shinjuku-ku, Tokyo 161-8560, Japan.

Although we have been making every effort to maintain product prices to absorb the rising costs of raw materials, processing, and transportation, the recent rapid changes in the business environment have made it difficult to maintain prices.

Given the prospect of further price hikes for raw materials, we regret to inform you that we are forced to raise our price for orders placed on and after October 1st, 2022, in order to maintain and improve the stable supply of our products and services.

We sincerely apologize for the inconvenience and burden this will cause to our customers, but we greatly appreciate your continued support and thank you for your understanding in this difficult situation.

We will continue to strive for better products.

We look forward to your continued support of our products.

Sincerely yours,

Nihon Kohden Singapore on behalf of Nihon Kohden Corporation

Hirotune Kobayashi

Managing Director
